It would be nice to have the video saved in case we are still unable to download it in 30 days.
We are trying to save video from 07-07-24 from 2030-2105 Hrs. from Condor camera "C001 Grant @River Ranch -WB"
Our case number is SMPD24-0009607.

Thank you!

Hi there,
I will be happy to take a look! I am sorry to hear that you are having such issues. I have asked our team to take a look to see what may be going on.

Do you need our engineers to pull this for you in the meantime?

Stay safe,
Rhianna

Good Morning,

Apologies for the trouble! We have someone on our team that specializes in this so I am passing you over to them and you should hear back shortly.

I appreciate your patience.

Stay safe,
AC

Subject: Problems downloading Condor

Flock support,
My partner tried to download our one demo Condor camera a couple days ago and kept getting (no-descript) error messages and was unable to download.
Today, I tried downloading some video from Condor.
When I click from "Live" to "Recorded" it takes more than a minute to load.
1st attempt at download failed, due to a pop-up blocks on Chrome v126.0.6478.127.
After I allowed popups, I was able to download one 5 min segment.
Next attempt got a long wait then error 'Unable to connect".
I cleared chrome cache, etc. and tried again. (clearing cache got rid of my pop up settings, so had to fix those again) Got second segment downloaded but on 3rd attempt got the "Unable to connect" error.
I cleared cache again, set up pop-up to allow all, tried getting video again and got error message.

I've now spent an hour trying to download one Condor camera for 7/7 from 2030-2100 Hrs. I've only been able to download 4 segments.

Please check to see if there is a problem on your end and offer suggestion on what I can do differently.
